MAHLET CHANYALEW

Software Engineering Student

Profile

Front-End Web Developer skilled in creating modern, responsive, and user-friendly websites. Certified by Udacity and continuously enhancing my expertise through Andalus Coding Academy. Currently expanding my knowledge in Back-End Development and Social Media Marketing (SMM) at Khelix Academy. In addition to web development, I am an educational content creator, video editor, and AI-generated video creator for YouTube. Passionate about continuous learning, creativity, and delivering high-quality digital experiences.
Also I am an Artificial Intelligence Intern at DecodeLabs. Skilled in HTML, CSS, JavaScript, React, Python, and Node.js, with hands-on experience building AI and web development projects.

Experience & Projects

Front-End Web Developer

2024 – Present

- Developed responsive websites for training and portfolio projects.
- Built real-world web applications individually and in team environments.
- Applied modern web design principles and responsive development techniques.
- Continuously improving skills in front-end and back-end technologies.

Content Creator & Video Editor

2024 – Present

- Create educational content across digital platforms.
- Produce AI-generated videos for YouTube.
- Edit and optimize video content for audience engagement.
- Apply storytelling and content creation strategies to digital media projects.

Artificial Intelligence Intern

DecodeLabs | July 2026 – Present (or the actual dates)

- Developed AI-based projects, including a rule-based chatbot.
- Built a machine learning classification model using Python.
- Created a recommendation system based on user preferences.
- Used Python and libraries such as pandas and scikit-learn.
- Collaborated on internship tasks and documented project work.
